

# VARAFORM

Varaform is an airy and lightweight Low Temperature Thermoplastic material engineered to meet your demands for creations of various forms without any limitations on your creativity or possibilities. You can shape on any mold or directly on human skin. Strength depends on layers bonded. Paint, coat, glue, attach accessories and create exactly the creation and expression you need. The material is made from a 100% cotton mesh which has been impregnated with a NON-toxic thermoplastic resin.

Varaform is heated to become soft and moldable and once solidified it will keep the shape.

Varaform emits no harmful substances when heated, sculptured or in the drying process. The material can be handled without gloves and special ventilation equipment in the room and when cut or grind no harmful dust is produced.

We know how important taking care of our fragile environment is and every little contribution counts! Therefore, Varaform is of course a biodegradable material and as a true protector of nature you can compost Varaform when used.\*

*\* 25% biodegraded after 90 days tested with ISO 148551-1 certificated test of Ultimate aerobic biodegradability by independent laboratory SGS, HK*

## **LIGHTWEIGHT**

Varaform is ultra-light in weight and easy to handle even when large creations are needed.

## **DURABLE**

Extremely durable and long-lasting. Becoming wet and dirty will not affect the strength of the material.

## **REUSABLE AND RE-MOLDABLE**

Save money and time. Remold any number of times and reuse all leftovers.

## **VARIABLE RIGIDITY**

Add layers for additional rigidity without compromising a low profile. Add strips just to areas where additional reinforcement or support is desired.

## **EXCELLENT CONFORMABILITY**

Forms easily to all shapes - no need to stretch or tug.

## **BONDING**

Self-adheres once heated. No solvents or adhesives required.

## **APPLICATIONS**

Spray or paint Varaform or apply accessories as you desire.

## **FAST CURING TIME**

In only 2-3 minutes Varaform has cooled and will keep its new shape.

## **EXCELLENT VENTILATION**

The open structure in the material gives great ventilation and comfort if used as decorations on humans.

Varaform is specially designed for:

- Theater and Cinema scenery
- Sculpture, molding
- Masks, armors
- Creation of various forms
- Restoration

**Varaform is available in three configurations:**

**Heavy Varaform:** Thick, rigid, used as support to your work

**Light Varaform:** Same mesh structure but thinner for more precise molding

**Gauze Varaform:** Gauze impregnated with thermoplastic resin.

**ORDER INFORMATION**

Item No.	Description	Colour	Size	Package	Special offer
201	HEAVY VARAFORM	White	Width 1,05 m	Roll of 10 m (10,5 m <sup>2</sup> )	Special price for 5 rolls or more (52,5 m <sup>2</sup> )
204	HEAVY VARAFORM	White	45 cm x 60 cm	Pack of 4 sheets (1,08 m <sup>2</sup> )	Special price for 10 packs or more (10,8 m <sup>2</sup> )
211	LIGHT VARAFORM	White	Width 0,9 m	Roll of 10 m (9 m <sup>2</sup> )	Special price for 6 rolls or more (54 m <sup>2</sup> )
214	LIGHT VARAFORM	White	45 cm x 60 cm	Pack of 4 sheets (1,08 m <sup>2</sup> )	Special price for 10 packs or more (10,8 m <sup>2</sup> )
221	GAUZE VARAFORM	White	Width 1,15 m	Roll of 10 m (11,5 m <sup>2</sup> )	Special price for 5 rolls or more (52,5 m <sup>2</sup> )
224	GAUZE VARAFORM	White	45 cm x 60 cm	Pack of 4 sheets (1,08 m <sup>2</sup> )	Special price for 10 packs or more (10,8 m <sup>2</sup> )
